PICKLEBALL PARTNERSHIPS

SAME INSTINCTS, BIGGER COURT, GLASS WALLS

Pickleball players arrive with the hands and the doubles instincts already built. Padel adds a bigger court, an overhead game, and walls that keep rallies alive far longer. **It is the natural next court for a player who has plateaued**, and it is indoors and heated when Portland takes your outdoor courts away for the winter.

RECIPROCAL RATES

STANDING

Your players get Foundry member rates, ours get the same at your courts or your league. Nothing changes hands and neither group has to switch.

CLUB NIGHT

WEEKLY

A standing weekly block for your group. Same night, same courts, so it becomes a fixture in your calendar rather than a one-off outing.

INTRO CLINICS

COACH-LED

A coach walks your players through the serve, the walls and court positioning. Racquets and balls provided. Most groups are playing real points in half an hour.

WINTER HOME

SEASONAL

When the outdoor season closes, a standing indoor block keeps your community playing and together through the wet months.
